About Me

I am a detail-oriented and results-driven Data Analyst with a passion for turning data into actionable insights. With a strong foundation in statistical analysis, data visualization, and programming, I excel at identifying trends and solving complex problems. Skilled in tools like **Python, SQL, and Tableau** I thrive on optimizing business processes and enabling data-driven decision-making. My goal is to leverage my analytical skills and technical expertise to contribute to organizational success and continuous growth.

Education

Uva Wellasa University of SriLanka
(Bachelor of Industrial Information Technology)

Sept 2021 – sept 2025

- **Coursework:** Database Management Systems, Statistical Methods-I, Statistical Methods-II, Business Analytics, Research Methodology and Scientific Writing, Advanced Database Management Systems

Projects

Service Insights - Centralized Web System

[github](#) [🔗](#)

- Designed and implemented a centralized web-based platform for VNS Service Station to integrate CCTV, plumbing, and wiring services.
- Created interactive features such as real-time booking, AI-based recommendations, and customer review systems to enhance user experience.
- Tools Used: Django, ReactJS, XAMPP, MySQL, Figma.

Online Food Ordering System

[github](#) [🔗](#)

- Developed a php platform for online food ordering, enabling users to browse menus, place orders, and track order statuses.
- Implemented features for admin management, such as menu updates and order tracking, to streamline operations.
- Tools Used: php, MySQL, Bootstrap, Figma.

Travel and Tourism Management System

2023

- Designed a web-based platform to manage travel bookings, tour packages, and customer information.
- Developed a user-friendly interface for customers to browse and book tours, with an admin dashboard for managing bookings and packages.
- Tools Used: HTML, CSS, PHP, MySQL.

Online Courses & Certifications

Data Science Foundations: [View](#) [🔗](#)

Python for Data Science: [View](#) [🔗](#)

The Git & GitHub Bootcamp: [View](#) [🔗](#)

SQL for Data Science: [View](#) [🔗](#)

Skills

Languages: Python, R, SQL

Soft Skills: Analytical thinking Problem-solving,Effective communication,Attention to detail,Team collaboration,Time management,Adaptability

Tools and Environments:Power BI , Figma, Excel, minitab, VS Code, Git, Jupyter Notebook

Extra-Curricular Activities & Volunteering

Member, Computer Society of Uva Wellassa University

2023

Contributed to the society's initiatives promoting technological advancements, organizing workshops, and participating in collaborative projects aimed at fostering innovation and knowledge sharing.
